

LEARNING STYLE INVENTORY- VEX IQ Robotics, Navigation Engineering, Gr. 5-8

Dear Parents and Campers,

For our **VEX IQ Robotics Camps**, we would appreciate knowing more about each camper’s learning styles and experiences to assist us with partnering our campers into teams of two as well as with providing a meaningful learning experience for each student. Each camper is expected to demonstrate good teamwork with their partner as they collaboratively construct, program, and drive their robots. Additionally, we will use this information with appropriately setting up our seating arrangements – as experienced and “seasoned” classroom teachers naturally do!

Please check ALL that apply – thank you! **Be sure to first **DOWNLOAD & SAVE** this form before filling in Text Fields*

Camper’s Name: _____ **Grade in Fall:** _____ **Gender:** _____

Camper has registered with a friend or sibling he/she would like to partner with; camper’s name:

Camper has registered with other *VEX IQ Robotics Team Members* and would like to be partnered and/or seated in close proximity with their *Team Members* (please provide names below):
